

Section	Name	Length	Fly	Accessibility	Fish
5	Mühlbach	1,0 km	✘	easy	Ä, B, R, S
6a	Valentin Gorge	1,5 km	✘	easy	B, R, S
6b	Valentin Gorge	3,2 km	Protected Area	difficult, only with helmet	B, S
7	Valentin Brook	1,8 km	✘	medium & easy	B, R, S
9b	Angerbach Valley	4,0 km	✘	easy	B, R
10	Lake Grünsee	32.000 m ²	✘	easy	Ä, B, R, S, SF
16	Lake Cellonsee	10.000 m ²	Mixed Waters	easy	Ä, B, R

Ä = Grayling, B = Brown Trout, R = Rainbow Trout, S = Char, SF = Lake Trout

Rules for Fly-Fishing

Mühlbach, Angerbach, Valentinbach, Valentinklamm and Grünsee

In addition to the Carinthian Fishing Laws, the following rules and regulations apply:

1. Fishing is only allowed with an artificial fly (dry or wet). You may only use one single fly for the catch.
2. Any existing barbs must be removed (hooks without barbs).
3. The „Catch and Release“ rule (no kill) applies. Captured fish must not be extracted but taken with wet hands and gently released back into the water.
4. Valentin Gorge (6b): Directions given by Aqua-Sol Adventure must be followed while fishing. This is particularly necessary in the Valentin Gorge because the harsh terrain means personal safety must be taken seriously. For access to the gorge, safety headgear is available to rent (danger of falling rocks). Enter on your own risk!
5. Fishing wardens will present certificates of authority by AAE Waserkraft GmbH. Additionally, you may be inspected by policeofficers, game wardens or customs officers.
6. Environmental protection is very important to us. For this reason we kindly ask you to avoid making loud noises (e.g. yelling loudly) and to refrain from leaving rubbish of any type in the environment. We also kindly ask you to inform us of any irregularities noticed along the course of the river.

Rules for Mixed Population Waters

Cellonsee

In addition to the Carinthian Fishing Laws, the following rules apply:

1. Baits: All artificial baits without barbs!
2. Any existing barbs must be removed (hooks without barbs).
3. Fishing wardens will present certificates of authority by AAE Waserkraft GmbH. Additionally, you may be inspected by policeofficers, game wardens or customs officers.
4. Environmental protection is very important to us. For this reason we kindly ask you to avoid making loud noises (e.g. yelling loudly) and to refrain from leaving rubbish of any type in the environment. We also kindly ask you to inform us of any irregularities noticed along the course of the river.

**A Good Catch wishes
family Klaus vlg. Lanzer!**
